

1,000,000 MEN IDLE AS A RESULT OF THE COAL STRIKE

And the Daily Loss of Wages is
Estimated to be Two Million
Dollars a Day

Chicago Packers Are Running Short of Fuel and Will Shut Down When Exhausted

The coal famine has extended today until more than one million workers either were idle or working part time, according to unofficial estimates. The wage loss it was believed totaled more than \$2,000,000.

Kansas and Oklahoma continue to operate the mines while Ohio operators and miners representatives met with Governor Cox in an effort to effect a wage agreement, failure of which may mean state operation. Hundreds of plants in the middle west were shut down and the number is being increased daily. About 15,000 passenger trains a month will be eliminated Monday between Chicago and the Pacific coast. Passenger traffic on eastern railroads will be curtailed beginning Wednesday. It was announced today. All second sections will be eliminated and the Twentieth Century Limited will be withdrawn from service. Unwaranted reports were being circulated that fuel administrators were considering asking governors to arrange for an extra two weeks' vacation for schools to follow the regular Christmas recess.

RALPH COUCH

(United Press Correspondent)

Washington, Dec. 5—More than a million workers are idle or employed only part of the time as a result of the coal shortage, it was estimated unofficially here today.

The estimate was described as "extremely conservative" by J. D. A. Morrow, vice president of the national coal association. Exact figures are impossible to obtain since normal reports are not received from all sections of the country, but railway administration reports show that in some sections whole communities are having enforced vacations at wage loss estimated at more than \$2,000,000 daily. Loss to employers and business men are beyond all estimates. Thousands of those affected are women who depend for employment on mercantile establishments. Factories that were put on a six and a half hour day were the hardest hit.

More than 400,000 railroad workers are expected to be affected by the strike according to estimates by the

Big Four railway brotherhoods who are beginning to feel the strike through curtailment.

Gary, Ind., thousands of steel workers have been laid off because of the closing of big furnaces.

Resume of Coal Situation in Chicago

Chicago, Ill., Dec. 5—Bituminous coal burning furnaces were virtually banked today while the last reserves of fuel were doled out to those industries most essential to the life of the people.

Hundreds of plants throughout the middle west were shut down. The value of the output of Chicago industries alone has been reduced \$35,000 daily, the Association of Commerce estimated.

When the order cutting passenger train schedules between Chicago and the Pacific coast goes into effect Monday, approximately 15,000 trains monthly will be eliminated. This will amount to approximately 6,000,000 passenger train miles in 30 days.

Announcement of train elimination will be made by railroad officials here tomorrow night. Packing houses were operating on curtailed schedule and will not be allotted any more coal. The regional committee ordered when the present supply is exhausted they will have to shut down. 4,000 wounded soldiers at the army hospital at Fort Sheridan wired coal operators appealing for fuel.

"No coal means more than lack of comfort, it means death for many of us."

The coal supply at the hospital was reported about exhausted.

Cabinet in Session 2 and 1-2 Hours

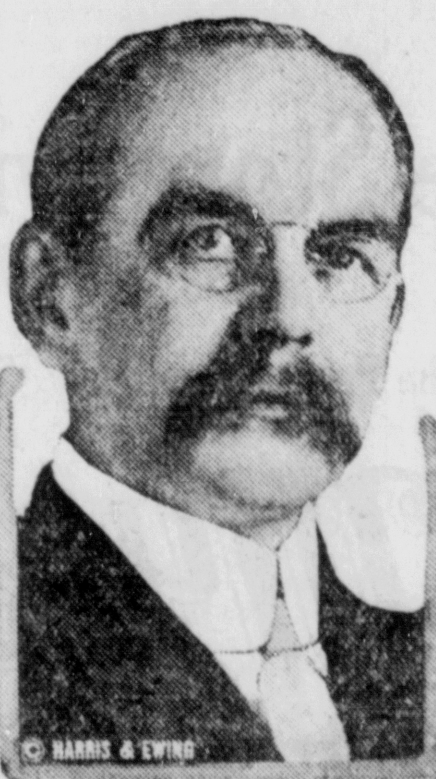

(By United Press)

Washington, Dec. 5—A meeting of President Wilson's cabinet was called at 11 P. M. today. The regular weekly meeting which was scheduled for Tuesday was not held but was called for today.

Washington, Dec. 5—President Wilson's cabinet adjourned today after two and a half hours discussion on the Mexican situation, the coal strike and the railroads.

Secretary Lansing refused to comment on the cabinet session.

Horrible Crime of Insane Architect

Kills Wife and Daughter and Badly Injures Three Smaller Children. Then Suicides

(By United Press)

Passaic, N. J., Dec. 5—Two little girls and one boy, their heads battered by an ax, lay unconscious for nearly forty-eight hours in their home here beside the bodies of their mother, father and sister.

Then one of the little girls recovered sufficiently to drag herself to the telephone and call a doctor. It was only then that the discovery was made that Mason R. Strong, architect, had suddenly gone insane Tuesday night, and killed his wife and daughter and seriously wounded the other three children and slashed his own throat with a razor.

The victims are Mason R. Strong, age 50, dead; Mrs. Mason Strong, age 45, dead; Elizabeth Strong, age 16, dead; Nina Strong, age 14, skull possibly fractured, may recover; Nathaniel Strong, age 12, skull fractured, expected to die; Susanna Strong, concussion of the brain, may live.

The first intimation of the tragedy was discovered by Dr. John Carlyle late yesterday.

"This is Nina Strong. Will you come to our house right away? Everybody is sick here," she phoned.

Take No Action on Troop Concentration

L. C. MARTIN

(United Press Staff Correspondent.)

Washington, Dec. 5—The senate military affairs committee today decided to take no action for the present on the Ashurst resolution directing the department to concentrate troops on the Mexican border. Senators Hitchcock and Fall arrived at the White House at 2:30 to confer with President Wilson.

Third Party Will be Formed

By RAYMOND CLAPPER
(United Press Staff Correspondent.)

Washington, Dec. 5—Congressmen returning to the capitol after a brief visit at their homes are bringing back talk of a third party which they understood is to come forward with presidential candidates.

This party, according to reports current throughout the country, and brought here by congressmen, will aim to pull the labor vote together with that of the Non-Partisan League and the Liberal element.

An active campaign is on, according to one republican senator, to place Frank P. Walsh, of Kansas City, at the head of the ticket. Others mentioned as candidates are Gov. Frazier of North Dakota, Non-Partisan League leader there; Senator LaFollette of Wisconsin; President Lewis of the United Mine Workers, and Samuel Gompers.

Labor, it is said, is dissatisfied with both old political parties. Democrats, labor men say, broke faith by using the injunction and the Lever act against the coal miners. The republican party, they said, has not thus far shown any marked sympathy toward labor.

Lansing Mandamus to Show Cause Why Prohibition Proclamation Should not be Revoked

(By United Press)

Washington, Dec. 5—A mandamus to compel Secretary Lansing to show cause why a proclamation declaring that a sufficient number of states had ratified the constitutional prohibition amendment should not be revoked, was filed in the district court today by attorneys for Robert A. N. D. Legislature

(By United Press)

Bismarck, N. D., Dec. 5—A minority filibuster, after beating all hopes of adjournment of the special session of the North Dakota legislature by Saturday, was charged by Senator Cahill, administrator leader in the senate today. He said the earliest possible closing date now is Tuesday.

Much of the important legislation sponsored by Non-Partisans is yet to be acted upon. That the house, backed up by the senate will move to elip the wings of Attorney General Langer by cutting down the number of his assistants from six to two, and approve the resolution to remove the state auditor from the board of equalization and from the state auditing board is certain. A griel of house legislation of Non-Partisan character was disposed of in both houses today.

Action has been taken on the oil bill placing oil companies under the supervision of the board of railroad commission.

Skull Found Under Floor by Minneapolis Man

(By United Press)

Minneapolis, Dec. 5—Police today had a well developed mystery several years old on their hands. A human skull incased in a cardboard box was found by J. A. Myer, when he was ripping up floor boards in his home to install electric light wires. Myers said he had lived in his house six years.

No other human bones were found about the place by the police. The University scientific department was asked to cooperate in an attempt to clear up the mystery.

Defendants Rest in in Pan Motor Trial

(By United Press)

Chicago, Ill., Dec. 5—The defense in the prosecution of the Pan Motor company rested today with the privilege of later recalling witnesses now in search of documents. President Pandolfo and Benjamin Forsythe, in final testimony, explained an omission in the copy of the Minnesota blue sky commission, reported by the company as a mechanical error.

Mr. Schlipin, partner in the company, charged with printing the documents, also called it an unintentional error. A report of the capital issue committee of Washington entered objections. They said 58 per cent of all stock sales received was devoted to promotion, and 42 per cent to capital stock. It said there was very small chance that the extravagant promises of the company could be fulfilled.

Mexican Bandits Raid Border Store

Bound and Gagged the Store Keeper and Escaped Across the Rio Grande With Loot

(By United Press)

Laredo, Texas, Dec. 5—Mexican bandits raided the Clerano ranch 11 miles down the Rio Grande from Zapata, Texas, according to a telephone message received in Laredo by County Judge A. P. Spohn of Zapata county.

The bandits crossed the Rio Grande river into Texas late last night, rode to the general store on the ranch, bound and gagged the storekeeper tying him to a post, and looted the store the message said. They took all the provisions in the place, packed them on a horse stolen from the ranch, and swam across the Rio Grande back into Mexico. Judge Spohn at once communicated the act to Captain Hanson, special investigator for the senate committee investigating the Mexican situation. Captain Hanson wired the details to Senator Fall.

Extension of Lever Act After Peace

(By United Press)

Washington, Dec. 5—Extension for six months after peace of the Lever act giving the government war-time power of sale and distribution of food and fuel will be granted only if conditions after peace are declared to warrant it, Chairman Haugen of the house agricultural committee, said today.

With the coming of peace the people may rightly expect no further government interference, and unless conditions warrant it, there will be no extension he declared. The department of justice wants the extension on the ground that it is needed to prevent profiteering.

Federal Judges Who Disagree Regarding Constitutionality of War-Time Dry Laws

Judge Arthur L. Brown

Here are two federal judges who disagree as to the constitutionality of the war-time prohibition acts. Judge Arthur L. Brown issued an injunction in Providence, R. I., on the

Judge Learned Hand

application of a brewing company, restraining federal officials in that city from enforcing the Volstead act. Judge Learned Hand, sitting in New York City, in a sweeping decision dismissed motions for temporary injunctions restraining the government from enforcing the dry law.

Asiatic Societies Favor League of Nations

(By United Press)

Brussels, Dec. 5.—The convention
of European and Asiatic societies fav-
or a league of nations. It opened
here Monday. It has passed a reso-
lution favoring the drafting of inter-
national law eliminating the right
to make war.

The convention also adopted a re-
solution favoring an international
conciliatory organization to pass up-
on all different interpretations of the
peace treaty.

Delegates decided to work for an
arbitration plan to settle industrial
disputes and urge employers to rec-
ognize the rights of their workers to
share in administration of industries.
The league of nations should admit
any nation desiring to become a mem-
ber of the convention voted.

Off with Dr. Edwards'
Olive Tablets

A pimply face will not embarrass you
much longer if you get a package of
Dr. Edwards' Olive Tablets. The skin
should begin to clear after you have
taken the tablets a few nights.
Cleanse the blood, bowels and liver
with Dr. Edwards' Olive Tablets, the
successful substitute for calomel; there's
no sickness or pain after taking them.
Dr. Edwards' Olive Tablets do that
which calomel does, and just as effec-
tively, but their action is gentle and
safe instead of severe and irritating.
No one who takes Olive Tablets is
ever cursed with a "dark brown taste,"
a bad breath, a dull, listless, "no good"
feeling, constipation, torpid liver, bad
disposition or pimply face.
Olive Tablets are a purely vegetable
compound mixed with olive oil; you will
know them by their olive color.
Dr. Edwards spent years among pa-
tients afflicted with liver and bowel
complaints, and Olive Tablets are the
immensely effective result. Take one or
two nightly for a week. See how much
better you feel and look. 10c and 25c.

WOMAN'S REALM

HOLIDAY SUGGESTIONS

BY GEORGE H. NETTLETON
(State Fire Marshal)

Do not take foolish risks.
Try to have a good time, but do not endanger life and property in doing so.

Remember safety first.
Do not use lighted candles on the Christmas trees; get the electric kind, carefully wired.

If candles are used, permit elders only to light them and see that they are not in close proximity to anything inflammable.

Keep all matches away from the children.

Fire proof all flimsy decorations if possible and do not use cotton bunting for snow effects or tissue paper for decorative purposes under any conditions.

For snow effects use mineral wool.

If there are any open gas jets see that they are protected and that there are no drafts while the tree is lighted.

Have a fire extinguisher of some sort handy.

Remove all Christmas trees within two or three days. Some persons allow them to remain until New Year's. This is wrong. There is nothing more inflammable than dry Christmas greens.

Fire once started in a room decorated for Christmas is likely to spread with terrible swiftness.

Every year the papers tell of many homes destroyed and many people burned to death as the result of Christmas fires.

Anderson-Smith

A quiet but pretty wedding took place in Brainerd last Wednesday evening at 8:30 o'clock, when Miss Hilder Anderson, a popular young lady of Ironton, and Glen Smith, son of Mr. and Mrs. I. W. Smith, of Ironton, decided to give their friends a surprise, and were married in Brainerd by Rev. W. J. Lowrie, pastor of the Presbyterian church.

Mr. and Mrs. Geo. McMannis were witnesses.

The young couple needs no introduction to the people of this village, as they are well known on the range. Miss Anderson has been making her home with Mr. and Mrs. E. F. McCausland at Superior, Wis., but spent summer in Ironton. Mr. Smith is one of Ironton's most popular young men and has a large circle of friends.

Mr. and Mrs. Smith are making their home in the Louis Sullivan residence, which they have leased until summer when they will build a home of their own.

The Cuyuna Range Miner joins with their many friends in offering congratulations.—Cuyuna Range Miner of Ironton.

Catarrhal Deafness Cannot be Cured. by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c. P. J. Cheney & Co.

At 87, Woman Says Flight Over Washington is "Fine"

At eighty-seven, Mrs. Zelle Longley is not too old to fly. After taking a twenty-five-mile spin over Washington, D. C., she told E. Hamilton Lee, her pilot, that "it was fine" and she only wished it had been longer. Mrs. Longley is a direct descendant of the Marquis de Lafayette.

Sad Page in History.

On July 26, in 1758, Louisbourg, a French fortress upon the island of Cape Breton, Canada, was captured by a force of New England militia and British regulars numbering 12,000 men and a fleet of 40 ships. The British were commanded by Sir Jeffrey Amherst and General Wolfe. After the fall of the fortress, the 5,000 men remaining in the French garrison were made prisoners and the Acadians, the French settlers in the surrounding provinces, were forcibly driven from their homes and transported to English colonies. The dispersal of the Acadians is the subject of Longfellow's "Evangeline."

Home.

Home is the blessed place where we expect to be judged at our best, and have our worst forgiven. We may know that the sympathy our failures receives is not wholly deserved, and may secretly understand that the praise of our successes should be discounted, but that does not in the least detract from the value of either. It is love's looking that makes us at once strong and humble—brave to face adverse opinions without and more determined to bring home better results to the kindly critics of the fireside.

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils To Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more hawking, snuffling, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

INTERESTING FIGURES

The finance committee of our city council submits the following data showing the necessity of voting "YES" on the Charter Amendment on Monday next, if our city is to do business as a first class city.

Estimated expenditures—Public Safety fund, May 1920 to April 30, 1921:

City Clerk	\$ 390.00
Municipal Judge	750.00
Health Officer	600.00
Janitor and Sanitary Police	255.00
Fire Chief	300.00
Fire Truck Drivers	3,600.00
Chief of Police	1,500.00
Captain of Police	1,380.00
Patrolman	1,320.00
Voluntary Firemen	1,250.00
Phone Rental	180.00
City Attorney	300.00
Coal	400.00
Repairs (Gasoline-truck)	500.00
Miscellaneous	500.00
Special Police	000.00

For Emergency	000.00
For City Health Nurse	000.00
New Fire Equipment	000.00
Total	\$13,225.00
Estimated deficit	\$ 2,975.00
Estimated Receipts—Public Safety Fund, May 1st, 1920 to April 30, 1921	
Real Estate Tax Settlement	\$ 6,500.00
Personal Property Tax Settlement	2,500.00
Court Fines and Fees	1,250.00
Total	\$10,250.00

The above shows that the city faces a positive shortage of approximately three thousand dollars in this fund, without any provision being made whatever for any occasion which would need a special or another policeman, or for any emergency such as we faced last year during the flu epidemic, or for the maintenance of the city health nurse, or for any new fire equipment, or the replacing of the present equipment, should any be destroyed.

Many feel that we should have a better police protection, and our fire chief says new equipment must be added for safety. All this comes out of the Public Safety Fund.

General Fund

The following is the estimated receipts and expenditures for the General Fund for the next year:

Estimated income and expense for the general fund, for the year 1920-1921:	
GENERAL FUND RECEIPTS	
From taxes, (estimated)	\$4,200.00
Cigarette Licenses, (est.)	275.00
Junk license, (est.)	96.00
Auto licenses, (est.)	400.00
Pool table licenses, (est.)	91.92
Peddler's license, (est.)	17.50
Dog licenses, (est.)	550.00
Plumber license, (est.)	75.00
Show house license, est.	100.00

Circus license, (est.)	100.00
Scale rent, (est.)	50.00
Sign permits, (est.)	4.00
Skating rink, (est.)	25.00
Total receipts	\$5,984.42
GENERAL FUND EXPENSES	
Municipal judge	\$ 250.00
City Clerk	1,170.00
City attorney	900.00
Janitor	765.00
City treasurer	420.00
City engineer	500.00
Insurance & bond premium	325.00
City directories	8.00
Signs	4.00

General expense, stationery and publishing, hauling ashes, election expenses, etc.	750.00
Laundry	15.00
Postage	7.60
Phone rental	100.00
Repair city hall	100.00
City attorney expenses	15.00
Mayor's salary	100.00
Coal	1,171.00
Alderman salaries	500.00
Assessor's salary	750.00
Freight and dray	20.00
City attorney expense	18.00
Ice	24.00
Water	15.00
Equalization board salary	45.00
Total expenses	\$7,972.60
Estimated deficit	\$1,988.18

This shows an estimated deficit of approximately \$2,000.00 in the general fund. It again leaves nothing for anything which the council might deem wise to make an expenditure for.

If you, Mr. Voter, will study these figures, you will readily see that added revenue must be provided or else our city must be financially embarrassed. Our city cannot keep up in the march of progress without adequate funds.

The above estimates were compiled after a study of the expenditures covering a period of three years.

Beckett Fails to Land Single Blow in Fight

Frenchman Stops English Champion in Less Than Minute and Half of Fighting

London, Dec. 4.—George Carpenter, the French champion, knocked out Joe Beckett, champion of England, tonight in a brief and decidedly one-sided fight for the heavyweight championship of Europe.

Seventy-four seconds, as announced by the official timer, sufficed to decide whether Carpenter or Beckett should meet Jack Dempsey, the American heavyweight, for the championship of the world in June. From the moment the referee called time, Carpenter, had the battle entirely in his own hands. Beckett never had a chance of hitting the agile Frenchman, who landed blows with enormous strength whenever he felt inclined.

Society is on Hand

Peer and peeresses, members of the house of commons, high officials of state, many women, most of them in evening dress, and the Prince of Wales, newly returned from his American trip, looked the fighters over.

Start at 9:54

The fight began at 9:54 o'clock. Carpenter darted in quickly and planted a left flush on Beckett's face. A brief bit of sparring followed.

Carpenter finally darted in again with his left. Both his footwork and handwork were much quicker than that of Beckett. The Frenchman again scored with two swift lefts in succession to Beckett's face. Carpenter got away again out of reach before Beckett had time to counter. Coming together again, the men

went to a short clinch. In the breakaway Carpenter was in like a flash with a left straight to Beckett's head. A terrific right to the jaw knocked Beckett's face downward to the boards.

Blood spurted from his mouth from this and previous punches. Carpenter helped to carry Beckett to the Englishman's corner. Beckett's eyes opened as this was done and his second said to him:

"Joe, you're out."

Beckett was unable to understand it all for a moment, but he seemed to comprehend when the crowd began to invade the ring.

Carpenter was hoisted to the shoulders of the first of the crowd that reached him. Everybody in the stadium was cheering including the Prince of Wales, while tens of thousands of persons who had gathered outside on the street were shouting their tribute to the victor.

The only effort made by Beckett in the fight was to cut loose a vicious uppercut with his right after he had received the first jab to the face. The blow missed by more than a foot.

AMUSEMENTS

"Cheating Cheaters"

"Cheating Cheaters" by Max Marcin is the name of the big New York drama and will be given in Brainerd Dec. 18th.

"Cheating Cheaters" belongs to that familiar and delightful form of play known as comedy-drama. The story deals with a band of crooks, not the low, sneak thief variety, but society crooks who play the big game. They have established themselves in a mansion, in the suburbs of New York, the Broekton mansion, with all the appurtenances of wealth for the express purpose of relieving a neighboring house of a magnificent collection of gems. Further revelations would spoil the effect of the play, except to say that the surprise of the last act, holding the tension to the very end, is furnished by the identity of Ferris, the great detective who has installed terror into the bosom of every crook in the land.

The cast for "Cheating Cheaters" consists of players popular with the theatre goers of the large cities.

At the Park Saturday and Sunday

One of the bits which will delight all in "Daddy Long Legs," the Mary Pickford Company picture featuring the famous little star, is the performance of a dog that drinks part of a jug of apple jack. Audience at the New Park theatre where this picture will be seen Saturday and Sunday, will see a new type of humor in the antics of this animal which gives a first rate imitation of a tippler trying to make his way home after a too liberal imbibing.

A special matinee will be given Saturday afternoon at 3 o'clock.

At the New Park Theatre Tonight

Few film stars have the personal charm of Marguerite Clark who appeared at the New Park last night and will be the feature again tonight. A large audience was delighted last night by one of the most pleasing pictures in which this charming star has appeared. The same picture will be shown tonight.

Explaining His Intention.

A nervous young curate in an English coal mining district was officiating at his first wedding. The bride and bridegroom smiled encouragingly at his first few blunders, but matters got serious when he turned to the bridegroom and asked, "Wilt thou have this woman as thy wedded husband?" The bride giggled, but the curate, getting hotter and hotter, tried again, "Wilt thou have this man to this wedded woman?" he said. At this the bridegroom interfered, "Aw don't know wot yer wants me to hev," he said, "but aw coom here for her"—laying his horny hand on the bride's shoulder—"an' aw'll hev her or nowt!"

Weather Optimism.

Everybody, said Mark Twain, complains of the weather, but nobody ever does anything about it. It is the common failing of humanity thoughtlessly to consider its personal comfort first, in disregard of the benefits which may result from a warm spell which ripens the crops, or a rainy season which fills the natural reservoirs, or a cold snap which is supposed to make away with next season's orchard and garden pests. And there is also on the side of the occasional weather excess the testimony of Dr. Ellsworth Huntington of Yale that monotony of temperature and humidity are not good for civilization, that man progresses most where there is a variety of climate.

FLOUR MILLS MAY BE TIED UP

L. R. Tanner of Tanner Milling Co., Gets Advice From Minneapolis Milling Men

NOT ASSURED OF COAL

Claim if Coal Shortage Continues 14 Days Longer, Then Mills May Have to Shut Down

A development of the coal strike may be closing down of the flour mills.

Advice received from Minneapolis milling men by L. R. Tanner of the Tanner Mill Co., indicate that the milling industry does not view the strike situation with rosy glasses. The claim is made that the mills are not in the preferred class regarding coal distribution and if conditions continue and the strike is not settled in 14 days, many flour mills will have to close down.

OLE NORGARD

Brainerd Route 2 Farmer Was Also Prize Winner at N. M. D. A.

Through an oversight the name of Ole Norgard, Brainerd Route 2, was omitted in the publication of the prize winners at the N. M. D. A. Potato Show, Duluth. Ole Norgard exhibited his potatoes with John Nelson who had their potato plots together and shipped potatoes this year. Mr. Norgard's potatoes, with Mr. Nelson's took fourth prize in Burbanks at this show.

Mr. Norgard has been a grower of Burbanks for 20 years and has won many prizes at both state and local exhibits. He has a distinction of probably being the only grower in Minnesota who has for a continued period of 20 years grown the same variety of potatoes on his land without changing seed or having them run out and still have potatoes capable of winning prizes at these large potato shows. The ability, to year after year, produce a good type of potato was accomplished by careful selection of seed and treatment each year, by continuous crop rotation and systematic planting and digging and in this way having at the end of twenty years a good type of high yielding Burbank potatoes of show variety and high production.

OBJECTING TO COAL DIVERSION

In a telegram to U. S. Senators Knute Nelson and Frank B. Kellogg and Congressman Harold Knutson, George D. LaBar, president of the First National bank and former county fuel administrator, wired:

If the plan of diverting the supply is continued, Minnesota will undoubtedly suffer by January."

Newark, N. J., Dec. 5.—Death by starvation, although he had more than \$2,000, has overtaken Frank Zablinski, who denied himself necessities that he might some day return in onulence to his family in Russia.

MAIL CHRISTMAS PARCELS EARLY

The curtailment of train service because of coal shortage makes necessary the early mailing of Christmas presents.

S. A. Clesler, superintendent of the railway mail service, 10th division, in a letter to Postmaster H. P. Dunn of Brainerd so advises:

"Recently a number of mail trains in the Tenth Division have been discontinued on account of coal shortage and further curtailment will be made in the next few days unless the situation materially improves. Even should the mines reopen to capacity it would be several days before train service could be resumed."

"It follows, therefore, the period from December 15th to 25th may find us with a material decrease in train service. Decrease in frequency results in congestion at depots and in postoffices, trains and terminal RPOs."

"The possibility of snow blockades further interrupting train service in this division should be kept in mind. Early mailing of Christmas parcels will mean:

"More expeditious handling in transit."

"Less danger of damage or loss."

"Insure delivery before Christmas morning in case of snow blockade or curtailment of train service."

"Let me urge for your favorable action, a vigorous campaign among patrons of your office by bulletin and public press with a view of securing an earlier mailing of Christmas parcels than has occurred in previous seasons."

DRY DATE RULING ASKED

Lansing Requests Opinion on Ohio's Recall of Legislative Act

Washington, Dec. 5.—Attorney General Palmer will be asked for an opinion as to whether a new proclamation declaring the constitutional prohibition amendment adopted will have to be issued as a result of the defeat of the amendment in Ohio. Secretary Lansing said today. A statement from the secretary of state of Ohio informing the state department of the recall of the action of the legislature in approving the amendment has been received at the department.

Some government officials hold that even should it be necessary to issue a new proclamation, the date of the coming into effect of the amendment would not be changed as more than thirty-six states had approved the amendment on last January 16, the date on which the thirty-sixth approval was registered.

The Interallied Aircraft Corporation of New York City Addressed Letter to Dispatch

The Interallied Aircraft Corporation of New York City is seeking an agency in Brainerd and the Dispatch transmitted the name of Rosko Bros. The firm has a fine landing ground, plainly marked, just to the southeast of the south end of the 13th street cement road. That road shines like a marker in the sunlight when one is flying about Brainerd.

As to planes flying now, the Dispatch was compelled to inform the New York firm that below zero temperature militated against such a performance. The last man flying to Brainerd, some time in October, was Lieut. Bullock of Minneapolis. His last flight in central Minnesota was on Armistice Day, when he flew to St. Cloud in a snowstorm, but low temperature compelled him to abandon giving a stunt flight.

At present no firms are handling aircraft, although it is reported Rosko Brothers will interest themselves in this branch.

The Dispatch is running no aviation column. The nearest approach to that was when the reporter went up in the air with Lieut. Bullock late in October and Bullock went through all his stunts from tail splits to nose dives. It took two columns to describe the experiences.

Brainerd has many who served in the flying corps of the army, ranging from surgeons to mechanics.

Of these 779 are members of the Y. M. C. A. Lack of space prevents admission of others. A student building is imperatively needed.

About forty per cent of the University students in Buenos Aires come from the provinces. Socially and morally their only constructive ally is the Association.

Keep Cheerful.

Now's the time to cheer up and get up. Don't let a lowering horizon or human rumblings disturb you. There have been many dark days before and they were followed by sunshine. There has been distress of nations and it has been followed by great marches of progress. The days of the present are the prelude to coming great things. Look the world in the face and teach it to respect you. Marshal your forces in such order that you have them in easy command and you are geared to serve. After all it's the cheerful face and the geared up life that brings things to pass in this world.—Grit.

Should Be Remembered.

Many people should remember that service, not self-service, was one great lesson of the war.

MILK TOAST DIET TOO MUCH FOR HER

"I doctored for years with only temporary relief. My liver was very bad, after eating I would always have such a fullness in my stomach and my heart would palpitate. I could not eat milk toast without distressing me. Since taking a course of Mayr's Wonderful Remedy, more than a year ago, I can eat anything my appetite desires." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. NEW TREATMENTS THAT KNOCKS RHEUMATISM

75c Box Free to Any Sufferer

Up in Syracuse, N. Y., a treatment for rheumatism has been introduced by hundreds of users say it is a wonder, reporting cases that seem little short of miraculous. Just a few treatments even in the very worst cases seem to accomplish wonders even after other remedies have failed entirely. It seems to neutralize the uric acid and lime salt deposits in the blood, driving all the poisonous "clogging" waste from the system. Soreness, pain, stiffness, swelling just seem to melt away and vanish.

The treatment first introduced by Mr. Delano is so good that its owner wants everybody that suffers from rheumatism or who has a friend so afflicted, to get a free 75c package from him to prove just what it will do in every case before a penny is spent. Mr. Delano says: "To prove that the Delano treatment will positively overcome rheumatism, no matter how severe, stubborn or long standing the case, and even after all other treatments have failed, I will, if you have never previously used the treatment, send you a full size 75c package free if you will just cut out this notice and send it with your name and address with 10c to help pay postage and distribution expenses to me personally."

F. H. Delano, 1565 Griffin Square Bldg., Syracuse, N. Y. I can send you one Free Package to an address.

SECRETARY LANE'S 'HOME' DEPARTMENT

HE IS DEVELOPING TWO GREAT POLICIES THAT ACTUALLY MEAN AMERICANIZATION.

FIRST IS WIDER EDUCATION

Five and a Half Million Illiterates in This Country—Second Plan is to Provide Farms for the Returned Soldiers.

By JAMES P. HORNADAY

Washington.—Franklin K. Lane, secretary of the Interior, is working out plans to make that department the department of the home to a greater extent than it has even been. "Throughout the war I sought to learn the significance of its larger phases as affecting our national life with relation to the duties of this office, and I believe that some of these ill which have fallen upon other lands may, in some part at least, be kept from our doors by the development of policies which are already in a small way being carried out by this department," said he. "One of those policies is that our schools shall be made more completely to serve America as a nation. The other policy is that the lands of this country shall not lie unused. Both may be included in the meaning of the word 'Americanization'—for one makes for the development of more helpful American citizens and the other makes for the development of more servicable American acres. For the intensification and extension of these two policies I would make earnest appeal that the high advantages of freedom which we have championed may be the more perfectly realized."

Mr. Lane's Two Great Plans.

Secretary Lane in this statement is referring to the two movements in which he has been interested since the war, the education of the hundreds of thousands of illiterates in this country and the consequent making of American citizens out of them, and his plan to provide farms for the returned soldiers, of whom more than 35,000 have already asked as to what can be done for them. The bureau of education of the department is standing sponsor for the first plan and the reclamation service of the department for the other. According to the statistics supplied by the secretary, more than 5,500,000 persons in this country over ten years of age are unable to read or write any language. He declares that, if the productive labor of an illiterate is less by only 50 cents per day than that of an educated man or woman, the economic loss to the country is close to a billion dollars a year. As to his project for farms for soldiers, the secretary declares that "there can be no surer insurance for the nation than to put its men upon the soil, and there can be no wiser investment that a nation can make than to add to its territory by taking from desert and waters and desolation land that is now useless."

These are but two of the newer phases of the work of the interior department and have very little to do with the regular tasks imposed upon the department by the congress. The present office is a part of the interior department. When it is realized that two-thirds of all the epoch-making inventions in the world during the last fifty years were American, and that the papers were passed by this bureau, an idea can be gained of the importance of the bureau to the country. The pension office, disbursing about \$180,000,000 of the people's money each year, is also a part of the interior department. So also is the general land office, which might be termed the greatest reality concern of the world, having total receipts in a year of more than \$5,500,000, its property for sale being mainly the fast-dwindling public domain.

Progress of the Indians.

Then there is the Indian office, the bureau that has charge of the Indian wards of the nation, their education, and the development of their vast estate. That the Indians are progressing under this bureau is seen in the fact that the 300,000 Indians in this country, before the Victory loan was brought out, had purchased \$15,000,000 worth of bonds and had shown their great patriotism by supplying more than 8,000 soldiers for the war. The magnitude of the work of this bureau is shown by the fact that during the last year it handled for the five civilized tribes alone \$28,000,000.

The promotion of education in the United States is also charged to the department of the interior through its bureau of education. While the present task of this bureau is to find some solution for the deplorable illiteracy conditions and thus guarantee more of the Americanization, it has other important duties that involve the welfare of all the people, from the toddler in the kindergarten to the aged who have not yet had the opportunities of an education that this country can afford to give.

Practically all of the bureaus of the department have something to do with the making and progress of the home; and the reclamation service, with its great construction projects, is no exception. In addition to its present task in endeavoring to urge farms for soldiers, this service has been instrumental in turning more than 2,000,000 acres of land into gardens with a total crop reported in one year valued at more than \$27,000,000.

Little English Boxing Marvel Just After He Landed in New York

This is Jimmy Wilde, the little English boxing marvel, as he looked when he landed in New York. He and his manager have no definite plans for the immediate future.

Dish Runs Away With Spoon.

A chain of restaurants in this city has to purchase more than a million spoons, forks and knives every year. Others tell the same story. Some of the help, according to the management of a Wall street restaurant, must be reckoned on as furnishing their homes with "borrowed" tableware and many patrons take it for souvenirs as unobtrusively as they would appropriate an umbrella on a rainy day.

A Wall street man was invited to a dinner at the house of a rich client not long ago and during the evening his hostess proudly showed him hundreds of spoons, forks and knives bearing the names of hotels and restaurants both of this country and Europe. "It took me ten years to get this collection together," said the lady, "and I didn't pay for one of them."

"And the dish ran away with the spoon." Yes, in the days of Old Mother Hubbard, but in modern times the patrons and the help. And the cost? Oh, that's passed on to the hungry patrons who go to the restaurant not to eat, but to eat.—Wall Street Journal.

No Treat for the Bunch.

I was married at my mother's home in a small country town at 8:30 p. m. The train we were going to take left at 10 p. m. After the ceremony was over there was a loud noise of shouts, tin cans and bells outside. We tried to escape through the back door, but were stopped by some of my old schoolmates. One of them said to my husband: "You cannot get away with the bells of our town without treating the bunch." My husband stopped a moment and then, stuttering a bit, said: "Well, boys, I am very sorry, but I have only money enough to buy tickets back to the city."—Chicago Tribune.

Were Hearty Eaters.

Many great musical composers had exceptionally large appetites. When Handel dined alone at a restaurant he usually took the precaution of ordering a meal for three. Haydn, yet more voracious, was known to consume a meal that would have satisfied five ordinary appetites.

Amendment to Articles of Incorporation of The Haydon Company.

We, the undersigned, president and secretary of The Haydon Company, do hereby certify that at a special meeting of the stockholders of said company, called and held at Brainerd, Minnesota, on November 25th, 1919, for the expressly stated purpose of amending its articles of incorporation as to increasing its capital stock by the issuance of \$25,000 par value of preferred stock there being present or represented at said meeting stockholders owning 830 shares out of a total issue of 870 shares of the capital stock of said corporation; that \$20 shares of stock were voted in favor of the adoption of the following resolution and no stockholders were opposed thereto, to-wit:

Resolved, That Section 5 of the Articles of Incorporation of this Company be amended to read as follows:

Section 5. The amount of the capital stock of this corporation shall be \$125,000, divided into 1,000 shares of common stock of \$100 each, par value, and 250 shares of preferred stock of \$100 each, par value, and subscriptions to common stock may be paid as called for by its Board of Directors and may be paid in cash, services or property at its fair value as may be determined by said Board, and the determination of the Board of Directors as to the fair value of the property or services taken in payment for capital stock shall be binding and conclusive, and subscriptions to preferred stock shall be paid only in cash and as called for by said Board.

The holders of the preferred stock shall not be entitled to vote at any stockholders' meeting but they may attend the same and shall receive in the same manner the same notices of meetings as the holders of the common stock.

The holders of the preferred stock shall be entitled to receive when and as declared, from the surplus or net profits of the corporation, yearly dividends at the rate of seven per cent per annum, and no more, payable annually on dates to be fixed by the by-laws. The dividends on the preferred stock shall be cumulative and shall be payable before any dividend on the common stock shall be paid or set apart; so that if in any year dividends amounting to seven per cent shall not have been drawn, the deficiency shall be payable before any dividend shall be paid upon or set apart for the common stock.

Whenever all cumulative dividends on preferred stock for all previous years shall have been declared and shall have become payable, and the company shall have paid such cumulative dividends for previous years or shall have set aside from its surplus or net profits a sum sufficient for the payment thereof, the Board of Directors may declare dividends on the common stock, payable then or thereafter out of any remaining surplus or net profits.

In the event of any liquidation or dissolution or winding up of the corporation the holders of the preferred stock shall be entitled to be paid in full both the par amount of their shares and the unpaid dividends accrued thereon, before any amount shall be paid to the holders of the common stock; and after the payment to the holders of the preferred stock of its par value and the unpaid accrued dividends thereon, the remaining assets and funds shall be divided and paid to the holders of the common stock according to their respective shares.

Any part of or all the issued preferred stock may be called in and paid for upon a majority vote of the Board of Directors by giving to the holders thereof thirty days' notice in writing, at \$105 per share and any accumulated and accrued dividends.

In Witness Whereof, We have hereunto executed this certificate as for and the act and deed of said corporation, and have attached thereto the corporate seal of said corporation at Brainerd, Minnesota, this 1st day of December, 1919.

Hacking Coughs

"For Hacking Coughs that rob you of your sleep till your system becomes so run down that you are in grave danger of Pneumonia or Consumption, the kind that almost tear you to pieces, that make your head ache, your throat sore and inflamed, take

Chamberlain's Cough Remedy

It soothes and heals the inflamed air passages, stops the tickling in the throat, and by its tonic effect enables you to throw off the disease. Chamberlain's Cough Remedy is quite different from the ordinary cough medicine, for it not only soothes but also heals, so that the effected parts are restored to a healthy condition and the danger of a future attack is removed. I firmly believe that it is the best and most reliable preparation ever produced for coughs and colds."
